

## **What should I look for when viewing a home?**

**Here are some things to consider when looking at a home:**

- General upkeep of the home
- Look for water leaks
- Look at the appliances and fixtures
- What condition are the floors in
- Doors and windows
- Check for drafts
- Drainage issues
- Structural issues
- Storage space
- Test the lights, faucets, toilets, furnace, air conditioning, and all major appliances that are to be included with the home.
- Get a home inspection
